

Time to Talk: April 23rd.

- What units do we use to measure weight?
- Can you find some things in the food cupboard that weigh the same as you did when you were born?
- What is the heaviest thing in your house?
- Is the smallest thing always the lightest?
- Can you find something to prove your answer?
- What is the heaviest animal that you know of?
- What is the lightest animal that you can think of?
